

# Improving Dental Care and Oral Health in Children with ASD

## Do you:

- Have a child with autism spectrum disorder (ASD) between the **ages of 3 and 13 years?**
- Have difficulty with your child's **tooth brushing at home** or with **taking your child to the dentist?**
- Have **Medicaid insurance?**

## Participation Involves:

- 4 study visits over 6 months, including 3 dental office visits and 1 visit to UCI
- Completion of questionnaires
- Some families will also participate in a 10-week intervention at UCI

**Families will receive an electric toothbrush and a 6-month supply of tooth brushing materials. Families may receive up to \$500 compensation for study participation.**

## **For More Information Contact:**

**Jackie at (949) 267-0428 or [moffittj@uci.edu](mailto:moffittj@uci.edu)**

The Center for Autism and Neurodevelopmental Disorders  
2500 Red Hill Avenue, Suite 100, Santa Ana, CA 92705
